

FOR IMMEDIATE RELEASE

**THE PUBLIC GAMING RESEARCH INSTITUTE NAMES ORDERPAD'S LOTTERY SOFTWARE SUITE
PRODUCT-OF-THE-YEAR**

New York, May 17, 2010, – The Public Gaming Research Institute (PGRI) names OrderPad Software, Inc.'s OrderPad for Lotteries Product-of-the-Year for their active role in driving the growth of the lottery industry through technology. PGRI established itself at the forefront of the Gaming Industry by providing the most comprehensive source of gaming news and providing expert analysis and insight, with which to understand it.

"We are honored that PGRI, an organization with such an intimate and expert knowledge of the Lottery Industry, has recognized the achievements of OrderPad for Lotteries" Said OrderPad Inc. CEO Adam Perlow. "We have spent the last few years with particular focus on cultivating our software suite to bring a new standard in lottery field sales efficiency. This has resulted in its adoption in thirteen states and contact with over 86,000 lottery sales locations."

A full Product-of-the-Year presentation of the OrderPad Lottery Software Suite is available on a special website dedicated for the PGRI SMART-Tech Conference, which can be accessed by visiting <http://bit.ly/9ezA2m>. Additionally there will be a special Product-of-the-Year section highlighting OrderPad in the May issue of Public Gaming International Magazine.

About OrderPad Software, Inc.

OrderPad Software, Inc. began implementing mobile sales force automation solutions in 1999 as a division of Cole Systems Associates, Inc., and in 2002, designed and built OrderPad Enterprise mobile sales force automation software. OrderPad Software, which leverages the benefits of Tablet PCs, provides mobile sales professionals working in the field with a powerful, easy-to-use interface for managing the entire sales process all from a single device, making them far more effective and better informed for on-the-spot decision-making.
